*Uriel Salazar Gómez*

*As Professionally Qualified and Proficient  
In Vetiver Systems Applications For  
Nursery Propagation & Supply*

*Vetiver zizanioides (L.) Nash  
"vetiver"*

*"Vetiver zizanioides (L.) Nash is a  
tropical perennial grass. The  
plant grows in large clumps  
from a much branched root  
stock with erect culms 0.5-1.5m  
high."  
Jim Smyle - Chairman  
*... the ...  
... of the ...**

*"Vetiver grass is widely used  
the ...  
planting ... as an  
anti-erosion measure, for  
protective partitions in terraced  
fields, and as a border for  
roads and meadows."*
